EDUCATION

B.Eng. Software Engineering (2020-2024)

Informatic Institute of Technology (Affiliated with the University of Westminster)

G.C.E. Advanced Level Examination (2018)

St. Mary's Convent - Matara

CAREER OBJECTIVE

I am an IT professional focused on technology and software engineering. As a final year Software Engineering undergraduate at IIT, I have a strong foundation in programming, machine learning, and data analysis. With one year of internship experience, I am known for my adaptability and problem-solving skills. I am eager to contribute innovative solutions to the tech industry and apply my technical expertise to deliver impactful software solutions.

WORK EXPERIENCE

Software Developer Intern

Esshva Techq (PVT) LTD. | Dec 2022-July 2023

- Developed two mobile applications as part of a full stack development team.

- Implemented UI designs and resolved bugs to enhance user experience and functionality.

- Collaborated with team members to design and implement intuitive user interfaces.

- Contributed to the development and deployment of Flutter and Node.js

Software Developer Intern

SIoT (by group of Seirra PVT LTD) | Sept-Dec 2022

- Conducted an in-depth study of SIoT's existing IoT systems to gain insights into their architecture and functionality.
- Developed the backend for the "Lalan Project," contributing to its successful implementation and deployment.
- Collaborated with team members to integrate backend functionalities seamlessly with frontend components
